GIG RIGS

1SKB19-R1406 & 1SKB19-R1209

The SKB Gig Rig series has set the standard for mixer/rack cases for more than 15 years, and the 4th Generation Gig Rig offers even more versatility than previous generations. Our Gig Rigs have a uni-body construction that is extremely durable. The 7° angled top steel rails are 12U rack spaces with extra room in the back for cable connections and ample room for larger analog and digital mixers such as the Yamaha 01V96, Allen & Heath Mix Wizard, and Mackie Onyx.

STEP 1

Gig Rig is lockable and stores/travels as a solid cube

STEP 3

Attach lid to bottom caster skid

STEP 2

The lid will be used as a pedestal

STEP 4

Attach mixer section to top of lid (puts mixer at proper height)

RACKS

WHY USE SKB RACKS?

- **MAKE YOUR OWN STACK** || Every SKB rack is stackable!
- **READY TO ROLL** || No need to manually mount wheels, just put your stack on the caster board and you are ready to roll!
- **EXTREME IMPACT RESISTANCE** || Because the racks are roto molded, they are very forgiving in terms of impact. The material has a certain degree of flexibility which makes it almost impossible to crack. This will protect your gear during transport.
- **EASY INSTALL AND ACCESS** || With the completely removable front and rear door or with revolving doors, we have it all!
- **DUST AND MOIST FREE** || All products in the range have a rubber gasket on both doors to keep your equipment dust and moist free.
- **CHANGE IN RACK DEPTH** || We have racks in all possible racks
- **MILITARY GRADED** || Some racks are military graded: MIL-STD-810G
